

Lots of Cuddles & Care

Newsletter

Welcome June!

Parent Reminder Board

Please remember to bring sunscreen for your little ones as we will be spending time out in the sunshine!

Our theme for June is nature. Each child will plant sunflowers in their own little flower pot and we will care for them and watch them grow! We will be discussing how plants and trees need sunlight, food and water to grow in circle time. We will also be discussing animals and how they too need food and water to live and grow. Our preschoolers will splash their hands in a bowl of water, a bowl of sand and we will "touch" the grass outside while we talk about what kind of animals live in these different environments and why.

June Birthdays

Amy 9th (my daughter)

Baby Steps

This month our littlest ones will also be spending time outside and enjoying "nature"! Our infant activities for June will tie into the preschool theme with a little twist! We will be "feeling" nature in order to get an understanding of the world around us. Since babies explore by putting items in their mouths, we will use their feet in order to allow them to feel different outdoor sensations. I will help them walk in the grass, splash their feet in a bowl of water and let them wiggle their toes in some sand in order for them to experience nature baby style!

24	25 Looking For Yellow	26 <i>The Little Duck</i>	27 Where Do Animals Live?	28 Discover Animals	29 Bear Snores On	30	

Book Suggestions

Read to your child often to help create a love for reading! Studies show that children who are read to as a child are more avid readers themselves!
